

COMPACT WALK BEHIND SWEEPER

The Tornado walk behind sweeper is a machine designed to change the way you sweep. Simple and effortless to use, the Tornado makes sweeping indoor and outdoor areas a breeze. Ideal for small areas and footpaths, the dual front brooms cover a wide surface area and enable users to sweep right up to the edge of the cleaning area.

Sweeping five times faster than a broom and achieving a higher standard of clean, the Tornado provides a more effective and efficient method of sweeping that's surprisingly affordable. Once you've experienced the Tornado sweeping machine, you'll wonder why you didn't invest in this economic sweeper sooner!
